It’s easy to check your degree progress through My ASU.

To check your academic progress toward completing your degree, just log into My ASU (my.asu.edu) and click on My Progress Reports (DARS) in the My Programs and eAdvisor box. DARS stands for Degree Audit Reporting System. To run your DARS report, click the Degree Audit (DARS) link.

Now click the Request New Degree Audit button.
If there is a default program listed, check to make sure it corresponds with your correct major and catalog year. If it does, click the Submit New Audit button to continue.

If no default program is listed or if the major and/or catalog year listed is incorrect, you should run a selected program. Click the Run Selected Program button to continue.
Now follow the drop down boxes:

- Select the first letter of your major
- Select your major (i.e. Art, Design, etc.)
- Specify your field/specialization
- Select your catalog year (usually the year you started attending ASU)
- Click the Submit a New Audit button

The report may take a minute or two to process. The page will automatically update itself, or you can click the Refresh List button until the report appears. When your report is complete, it will appear on the screen. Click on Open Degree Audit to view your DARS report in a new window.
Make sure to click Open All Sections to see your entire report. To print your report, click on Printer Friendly so the report will fit correctly on the printed page. Then use your browser’s File > Print option.
